Shivang Patel

N9B 2M9, Windsor, Ontario   shivangpatel7103@gmail.com   (431) 726-3806

Looking for a web developer position in a dynamic, creative atmosphere that values cooperation and personal development.

Summary

I am a highly motivated Computer Engineering graduate with a deep passion for web design and internet applications. I have earned a specialized diploma in web development and possess extensive proficiency in HTML, CSS, JavaScript, PHP, and database administration. With a proven track record of problem-solving and a strong ability to work effectively in teams, I excel in delivering innovative solutions. I am currently seeking a challenging position in web development where I can utilize my skills, continue to grow, and contribute to the organization's success.

Web Development Skills

- Skilled in JavaScript, Bootstrap, HTML, CSS, and AJAX.
- Be familiar with PHP for server-side programming.
- A fundamental knowledge of C#, Java, and Angular.
- Experience with cloud-based development using AWS (Amazon Web Services).
- Comfortable in Linux and Ubuntu settings.
- Working knowledge of the Laravel framework and the ASP.NET MVC architecture.
- Proficient in SQL and database management.
- For version control, use GitHub and Git.
- Agile project management techniques.
- A thorough knowledge of proper website design.
- Proficient verbal and written communication abilities.
- Designing visually beautiful and user-friendly interfaces with Adobe XD, Photoshop, and Illustrator.
- Proven analytic skills and a passion for building interactive web apps.
- dedicated to following the most recent trends and technological advancements in web development.

St. Clair College   **May 2022 - Present**

   Diploma, Web Development and Internet Applications

Phoenix School   **May 2019 - June 2021**

   Higher Education -Physics, Maths, Chemistry

Projects

My Portfolio
St. Clair College

- Using HTML and CSS, I made a portfolio website.
- Proven expertise in front-end web development.
- Created a user-friendly and aesthetically beautiful portfolio.
- Effectively shown projects, abilities, and accomplishments.
- Made a responsive and interesting portfolio using HTML and CSS.

Book Store
St. Clair College

- Made use of ASP.NET MVC to create a user-friendly online bookshop platform.
- Exhibited proficiency in database administration and full-stack web development.
- Made use of the JavaScript, C#, HTML, Bootstrap, and ASP.NET MVC frameworks.
- Added features including book browsing and the ability to add, modify, and remove books.
- shown competence with Microsoft's ASP.NET MVC technology stack while creating and implementing reliable online apps.

Laravel Blog
St. Clair College

- Using the Laravel framework, the "Blog" project is now being developed.
- Building a strong blogging platform with Laravel Models, Views, Routes, Controllers, and more.
- Skilled in building effective web apps with Laravel.
- Developing skills in utilising Laravel's robust features for a frictionless user experience.
- Laravel project construction and management experience, demonstrating useful web development abilities.

Hobbies
- E-sports gaming: Take part in online competitions and competitive gaming to show off my prowess in the virtual world.
- Sports Enthusiast: Engage in sports activities, support favoured teams, and maintain an active lifestyle.
- Wanderlust Adventurer: Travel to new places, get to know other people's cultures, and make lifelong experiences.

Languages

- English, Hindi, and Gujarati
